SCOPE:

- 1) Includes protecting 2 storage tanks, 2 buildings, and pump enclosure with an exposed class I lightning system.
 - 2) Aluminum roof system/materials
 - 3) Copper exposed downleads
 - 4) 5/8"x 20' ground rods. Each downlead will terminate to a single 20ft ground rod.
 - 5) Includes adding antenna grounding and revising the existing connection components.
 - 6) providing design & installation in compliance with NFPA 780, UL96A, and LPI 175 lightning protection standards requirements.
 - 7) Includes a third-party certification, obtained through LPI IP Master inspection/certification program.
 - 8) Based on work performed utilizing a ladder. Excludes scaffolding or man lift costs.
 - 9) Includes 1 site assessment meeting to finalize design requirements.
-

Furnished & Installed

- GST #1 (80ft diameter) – Lightning Protection System
The non-conventional (non-code compliant) **ESE Mast can be removed or remain in place and interconnected with the new code compliant LP system.**
 - GST #2 (70ft diameter) – Lightning Protection System
 - Building 1 (260ft perimeter) – Lightning Protection System
 - Building 2 (60ft perimeter) – Lightning Protection System
 - 2 Pump Enclosure (36ft perimeter) – Lightning Protection system. Includes bonding to pump.
 - Antenna Grounding
-
