five (45) days of the expiration of each term of the contract. Any price redetermination will include all items awarded. If the City and the Contractor cannot agree on any price redetermination, then the contract will expire. (See other conditions under Special Terms and Conditions)

UNUSUAL CIRCUMSTANCES: If during a contract term where costs to the City are to remain firm or adjustments are restricted by a percentage or CPI cap, unusual circumstances that could not have been foreseen by either party to the contract occur, and those circumstances significantly affect the Seller's cost in providing the required items or services, then the Seller may request adjustments to the costs to the City to reflect the changed circumstances. The circumstances must be beyond the control of the Seller, and the requested adjustments must be fully documented. The City may, after examination, refuse to accept the adjusted costs if they are not properly documented, increases are considered to be excessive, or decreases are considered to be insufficient. In the event the City does not wish to accept the adjusted costs and the matter cannot be resolved to the satisfaction of the City, the City will reserve the following options:

1. The contract can be canceled by the City upon giving thirty (30) days written notice to the Seller with no penalty to the City or Seller. The Seller shall fill all City requirements submitted to the Seller until the termination date contained in the notice.
2. The City requires the Seller to continue to provide the items and services at the firm fixed (non-adjusted) cost until the termination of the contract term then in effect.
3. If the City, in its interest and in its sole opinion, determines that the Seller in a capricious manner attempted to use this section of the contract to relieve themselves of a legitimate obligation under the contract, and no unusual circumstances had occurred, the City reserves the right to take any and all action under law or equity. Such action shall include, but not be limited to, declaring the Seller in default and disqualifying him for receiving any business from the City for a state period of time.
4. If the City does agree to adjusted costs, these adjusted costs shall not be invoiced to the City until the Seller receives notice in writing signed by a person authorized to bind the City in such matters.

Bound Tree Response to COVID-19

As Your Partner in EMS for over 40 years, it continues to be our mission to help you save and improve patients' lives. We believe that our mission is never more important than at times like this. Our entire team is committed to being your partner during this very challenging time because we know the critical part we play in providing you with the medical supplies you need to treat patients and protect yourselves.

Supply Access

Updated August 27, 2020

The global demand for PPE and ventilators has outpaced the market supply, leading to severely extended lead times. This current market dynamic on select PPE and ventilators has impeded our ability to serve you. Although some products are available, we will not offer them unless they meet the requirements we know will keep you safe.

As a result, we have made the difficult decision to put ordering restrictions in place on select PPE, infection control and ventilators.

General Ordering Restrictions

We have temporarily suspended taking orders for select PPE and ventilators that are backordered with excessive or no lead-times. We continue to re-evaluate the market weekly in hopes of resuming taking orders for these critical products.

The products below are temporarily unavailable to order.

Face Masks	Decon/Hazmat Clothing	Infection Control Kits
Shoe and Sleeve Covers	Gowns and Caps	

Online Ordering Restrictions

In addition to the restricted products noted above, we have made other select PPE, infection control and monitoring products unavailable to order on the website to prevent hoarding.

Please contact Customer Care or your dedicated Account Manager to place an order.

The products below are temporarily unavailable to order online only.

Placing Orders for PPE and Other Critical Products

Bound Tree is committed to providing the best-in-class support you are used to as a Bound Tree customer during the COVID-19 pandemic.

To support our customers, we have put the following procedures in place:

- Ordering restrictions have been put in place on the most impacted products to prevent hoarding.
- Some of the most impacted items may still be NON-CANCELABLE and NON-RETURNABLE until the supply chain normalizes.
- Account Managers are available for ordering assistance - please call or email your Account Manager directly for support.

To order products that are no longer available for purchase on our website (see [Online Ordering Restrictions](#) section above), please submit your order via email to customerservice@boundtree.com. Our Customer Care Team will process order requests that include all of the following information:

- Account number
- Bound Tree item number and quantity
- Contact information
- Confirmed shipping address

If you have any questions regarding product availability, please reach out to your dedicated Account Manager. Your Account Manager will be able to help you navigate through these challenges and provide you with accurate availability and alternatives.

Cancellation and Return Policy

Due to COVID-19, Personal Protection Equipment (PPE), infection control supplies, and other related products are on manufacturer backorder. While the manufacturers are increasing production, they are also implementing strict rules that all orders are non-cancelable and non-returnable. We understand the impact of passing these policies on to customers and feel compelled to act. Going forward, we are willing to absorb this risk from our suppliers to ensure you have the flexibility you need to stay safe and operational through this crisis.

Effective immediately, on orders placed since March 1, 2020, you may cancel items not yet received with no ETA.

There are some exceptions to this policy, and your Bound Tree Account Manager or one of our Customer Care Representatives can explain policy exceptions.

As indicated on the Bound Tree return policy, all returns require an approved RMA number. Items received without an RMA will not receive credit. Please contact Customer Service at 800-533-0523 if you have questions, or would like additional information.

Protecting Our Team

Recently a small number of state and local governments began to implement varying degrees of stay-at-home orders for all but essential businesses. Bound Tree is an essential business and will continue to remain operational. Nearly all of our team is working remotely to help ensure proper social distancing and prevent/mitigate any possible transmission of COVID-19. We are fully committed to ensuring support of our customers during this very challenging time. We will continue to stay close to this issue and provide updates as they become available.

We have taken additional measures to sanitize our warehouse and offices, and continue to implement best practices for disease prevention, as outlined on the CDC (Centers for Disease Control and Prevention) website to help keep our employees safe. Warehouse employees have been provided with personal protection equipment for their safety, and the safety of our customers.

VAWD Certified State and Nationally Licensed

Several of Bound Tree's Distribution Centers have received VAWD (Verified - Accredited Wholesale Distributors) accreditation from the National Association of Boards of Pharmacy (NABP). VAWD accreditation is achieved after a criteria compliance review that includes a rigorous evaluation of operating policies and procedures, licensure verification, survey of facility and operations, background checks and screening through the NABP Clearinghouse. Our accreditation demonstrates that we are in compliance with state and federal laws and that our prescription drugs are distributed safely and securely.

For a complete listing of VAWD-Accredited Facilities, please visit:

Compliant with DSCSA Requirements

Under the Drug Supply Chain Security Act (DSCSA), entities in the supply chain including manufacturers, wholesale distributors, and dispensers have responsibilities to meet the requirements of the DSCSA. As of May 1, 2015 all wholesalers are required by law, under the DSCSA, to provide transaction information, transaction history and transaction statements for the pharmaceuticals that they supply.

Bound Tree is compliant with these FDA standards which helps improve patient protection by preventing the distribution of substandard or ineffective drugs and while providing our customers with the product and transaction information they need to be in compliance with the FDA standards.

Under the DSCSA you are responsible for knowing that your prescription drug wholesale distributor is an authorized trading partner who holds a valid state or federal license. Bound Tree Medical is licensed federally and in all 50 states. Purchasing from a licensed and VAWD accredited distributor like Bound Tree Medical makes great strides to ensure none of your purchases will ever be counterfeit, contaminated, improperly stored and transported, ineffective, and/or unsafe.

Wholesaler Distributor licenses can be searched online:

Controlled Substance Ordering System (CSOS)

Class II Controlled Substances can be ordered through our secure electronic Controlled Substances Ordering System (CSOS) without the supporting paper DEA Form 222! The DEA's CSOS program is the only allowance for electronic ordering of Class II controlled substances. To participate in CSOS, the DEA registrant must first acquire a CSOS digital certificate from the DEA. Once the certificate is received, Class II orders can be placed through our secured website: e222.boundtree.com

For more information about CSOS please visit: www.deacom.gov

Bound Tree will continue to accept paper 222 forms for those who wish to utilize that method for ordering.

Bound Tree Medical is committed to compliance with these federal and state regulations for the benefit of our customers, their communities and their patients. These efforts protect our customers by helping to ensure that they are also compliant with federal and state regulations and practicing safe and effective patient care. With Bound Tree Medical, EMS providers know that they will receive pharmaceuticals through a secure and reliable distribution process.

Pharmaceutical Price Increase

It is Bound Tree's intent not to increase pricing on pharmaceutical products for the initial contract term. However, manufacturers have recently been significantly increasing prices on pharmaceutical products due to market conditions and the associated costs to comply with federal legislations. In the event such price increases occur after the bid award, Bound Tree will notify you of such increases and provide adequate documentation from the manufacturer to demonstrate evidence of increase. The new pricing will then go into effect based on a notification period provided. If the customer does not accept the increase, Bound Tree reserves the right to remove the product(s) from the contract or find an alternative product at no additional cost to Bound Tree.

Current situation.

- **Financial challenges plague EMS** across all delivery models; rural EMS is in a crisis. Low reimbursements from CMS & commercial insurers, frequently below the cost of the care provided, and lack of funding to support EMS have been the primary contributing factors.
- **High levels of stress, fatigue and burnout** among the EMS workforce. Workforce shortages as reported in national news are exacerbating an already very challenging environment.
- **EMS is a small percentage** of the consumption of PPE within the healthcare market and was left under-allocated for PPE during the pandemic.
- **EMS impacted by shortages and short expiration dates** on critical cardiac arrest and respiratory therapy drugs. Pharmaceutical companies prioritize large hospital GPOs & IDNs over EMS
- **Inefficiencies in using the Strategic National Stockpile** to provide critical PPE to EMS agencies who were the “Tip of the Sword” during the pandemic
- **Community paramedicine** remains an underutilized asset in local healthcare systems due to the lack of reimbursement for this highly cost effective, patient-centered type of care

Advocating for EMS.

- **Increased sourcing efforts** during the pandemic, making financial investments in PPE inventory.
- **Partnered with US government** to address challenges in getting FDA-approved products, given significant counterfeit in N95 masks and gloves.
- **Volunteered to assist** FEMA, HHS, DHS, DoD, FDA and CDC officials as “Voice of EMS” for Committee for the Distribution of Medical Resources Necessary to Respond to a Pandemic, advocating for effective distribution of PPE to first responders.
- **Advocated for increased allocation and funding** for EMS and hardest-hit communities through outreach to over 35 congressional offices.
- **Providing critical data monthly** to HHS Preparedness and Response teams, providing them greater visibility of PPE needs for EMS during the COVID-19 pandemic, as well as future pandemics and natural disasters.
- **Working with the Federal Maritime Commission** and west coast terminal operators to prioritize essential medical supplies at US ports.

How Congress can help.

- **Adjust the ambulance fee schedule** to cover the cost of the emergent, urgent and preventive care provided by EMS, and include reimbursement for treatment in place, transport to alternate designations, telemedicine facilitation, and community paramedicine.
- **Support Bound Tree’s efforts** with pharmaceutical companies and the FDA to prioritize production of key lifesaving drugs for EMS at reasonable costs, as well as to reduce the amount of “short expiration dates.”
- **Fully fund the SIREN Act** (Support and Improving Rural EMS Needs) in FY2022.
- **Support efforts to strengthen** America’s Strategic National Stockpile by directing SNS to partner with healthcare distributors to manage PPE during pandemics and natural disasters.

RETURNS FOR PERSONAL PROTECTIVE EQUIPMENT (PPE)

Bound Tree Medical has experienced a significant surge in orders for personal protective equipment (PPE) due to the outbreak of Ebola and we are working closely with our suppliers to keep up with the increased demand. To further this effort and ensure that we do not over-allocate products based upon excess order quantities, PPE products will no longer be eligible for return. Additionally, all open PO's for PPE products will not be cancellable after placement. This policy update is effective October 22, 2014. We will revisit this update when the Ebola crisis has subsided and alert you to any additional changes.

As indicated on the Bound Tree return policy, all returns require an approved RMA number. Items received without an RMA will not receive credit. Please contact Customer Service at 800-533-0523 if you have questions or would like additional information.

RETURN FOR REPAIRS

Items to be returned for repair must be prepared according to the most recent OSHA requirements. Items must be properly cleaned and verified with a statement on the outside of the package. Proof of purchase must be included with all manufacturer warranty repairs. Please contact our Customer Service Department for additional information.

CLAIMS

All claims for damage occurring in transit must be made upon receipt of goods by customer directly to the carrier. Please save all boxes and packing material. All shipment errors must be reported immediately upon receipt to Bound Tree Medical Customer Service.

 - Trends can be tracked by running reports that can include all shipping locations, or that can be tailored to a specific shipping address.
 - A purchase summary report can be self-generated to view total products purchased over a selected period of time.
