

CITY OF DELTONA
FINAL PLAT DEVELOPMENT ORDER
VINELAND RESERVE PHASE 3
990 PEACH CREEK DRIVE

PARCEL ID NOS: 9112-00-00-0150, 9112-00-00-0151, 9112-00-00-0250 AND 9112-00-00-0251

A. FILE NO.: SD22-0006

B. NAME OF APPLICANT: Dan La Rosa, Lennar Homes, LLC.

C. APPLICANT ADDRESS/TELEPHONE NO: 6675 Westwood Blvd., 5th Floor
Orlando, FL 32821
Daniel.LaRosa@Lennar.com
(407) 340-8480

D. DESCRIPTION OR TYPE OF AUTHORIZED DEVELOPMENT:

Final Plat application to allow a 127-lot single-family subdivision on approximately 38.77 acres of land located north side of Doyle Road, south of Collins Road, and west of Vineland Reserve Phase 2.

E. FINDINGS AND CONCLUSIONS:

1. Application received on: April 11, 2022

2. Deemed complete on: August 17, 2022

3. Conditionally Approved by DRC on: _____

4. Approved by the City Commission on: _____

5. The authorized development as proposed under this Development Order is found to be consistent with all applicable provisions of the City's Comprehensive Plan, the Land Development Code, and the Vineland Reserve RPUD.

F. TIME LIMIT:

This Final Plat Development Order shall be valid until the plat is vacated as per Chapter 106 of the City Land Development Code or replatted as part of a subsequent Development Order.

G. CONDITIONS OF APPROVAL:

1. Consistent with Section 96-76, the Letter of Credit Agreement for the signed and sealed Letter of Credit in the amount of \$2,877,503.55 was received on January 19, 2023, shall be recorded into the public records prior to or concurrently with the recordation of the Vineland Reserve Phase 3 Final Plat.
2. The proposed development shall be built in conformance with the approved Final Plat Development Order and other related documents for this project, including the Development Agreement of the Vineland Reserve Residential Planned Unit Development.
3. Before the clearing of the site commences, the owner/developer shall contact the NPDES Inspector at (386) 878-8978 to arrange for a site inspection to verify the proper installation of silt fences and other best management protection devices. A minimum 48-hour advance notice is required prior to a scheduled clearing.
4. The owner/developer or contractor shall contact Public Works Engineering Inspectors office at 386/878-8993 to schedule all engineering and utility inspections. A minimum 24-hour advance notice is required for all field inspections.
5. The owner/developer shall contact Deltona Water at (386) 878-8970 or the Utility Systems Manager at (386) 878-8977 to schedule the coordination of utility construction activities, such as wet taps, backflow prevention equipment inspections, pressure testing, lift station start-ups, and Deltona Water fees. A minimum 24-hour advance notice is required for all field activities or inspections.
6. A Site Engineering Permit/Inspection Placard shall be issued by Public Works per this Development Order. This permit shall be posted at the construction site in a prominent place for public viewing. A minimum 48-hour advance notice is required for all inspections. Please see the Site Engineering Permit/Inspection Placard for contact information.

7. The owner/developer shall contact the Deltona Fire Department, Fire Safety Division at (386) 878-8655 to schedule the coordination of fire safety required site and construction inspections, such as underground fire lines, fire sprinkler backflows, water supplies, etc.; as well as questions concerning fire safety fees. A minimum of 48 hours advance notice is required for all field activities or inspections.
8. Fire Department access roads provided in accordance with 18.2.3 shall be provided at the start of a project and shall be maintained throughout construction (NFPA 1, Fire Code, 2018 Edition, Section 16.1.4).
9. The holder of all required state and federal permits shall have acquired such permits before the commencement of any site development or clearing and provide a copy to the City of Deltona for review.
10. Before site clearing work can commence, the owner/developer must post the approved original signature permits from all local, state, and federal agencies on-site at all times, to verify that the tree barrier protection, landscape buffers, historic/specimen trees, if any, and all trees to remain, are properly protected. The owner/developer must have all legally required local, state, and federal permits for construction and or land-clearing activities prior to the live capture, relocation, and release of any species listed as endangered, threatened, or of special concern by the State of Florida Fish and Wildlife Conservation Commission. The owner/developer will contact the Public Works Department's Project Manager/Environmental at (386) 878-8965 a minimum of 48 hours before the owner/developer environmental consultant/contractor commences work on-site.
11. In accordance with Florida Statute 556.105, before any site clearing or digging commences, the owner/developer shall provide a copy of the call ticket and number to Public Works Environmental staff at a pre-clearing inspection. To schedule the utility locate, please contact Sunshine One at 1 (800) 432-4770, or visit www.callsunshine.com. This condition must be prior to pre-clearing inspection (see #8 above). If the call ticket is not provided at

time of pre-clearing, inspection will not be approved and will be subject to any civil penalties. For more information or additional assistance please contact the Code Compliance Division at (386) 878-8700.

12. Although irrigation plans are submitted to the City as part of the site plan review process, approval and permitting for irrigation is obtained from the Volusia County Office of the Florida State Health Department. Please contact Mr. Andy Natal at (386) 736-5444 for additional information.
13. Consistent with Ordinance No. 06-2019 the City has granted a waste hauler exclusive rights to haul waste and refuse (residential and non-residential uses) within the city limits of Deltona. Therefore, all waste management, including but not limited to, debris and other refuse generated during the land clearing and construction phase(s) shall be hauled by the sole hauler granted exclusive rights by the City. In addition, after a Final Plat is accepted and individual C.O.s are issued for dwellings, the hauler will continue to be the sole provider for solid waste hauling for the project. The City currently has a relationship with the solid waste hauler Waste Pro. To coordinate waste management with Waste Pro, contact Waste Pro at (386) 788-8890. This condition will apply to any future exclusive solid waste hauling terms negotiated by the City.
14. After roads or other infrastructure are built and accepted by the City, no right-of-way or other dedicated areas can be used to store or place any solid waste or solid waste container. In addition, all solid waste storage and management must be consistent with applicable City Codes.
15. This Development Order shall be subject to acceptance of a final plat by the City Commission.

H. CERTIFICATE OF CONCURRENCY:

Concurrency requirements, pursuant to the City's Comprehensive Plan and Land Development Code, have been reviewed and are determined to be sufficient. The Certificate of Concurrency is achieved by issuance of this Development

Order and shall remain valid for the duration of this Development Order. However, concurrency is not vested and, should the project fail to meet concurrency requirements at the time a building permit application is made, the permit may not be issued.

I. LIMITATIONS:

1. This Development Order authorizes development within the City of Deltona, as specified herein. Any deviation from or modifications of the development authorized by this Development Order must be submitted to the Department of Planning and Development Services for appropriate review and, if warranted, approval.
2. This Development Order does not confer vested rights to development after the expiration date, specified herein. This Development Order authorizes the issuance of permits and is not a substitute for any required permit. This Development Order does not eliminate or substitute obligations to comply with all applicable City codes or ordinances, or for compliance with any other required federal, state, regional, or local permits.
3. Open burning of land clearing debris (uprooted or cleared vegetation) for purposes of preparation for development or construction of buildings and rights-of-way or land development is prohibited. Alternative means for disposal/removal shall be agreed upon with the city of Deltona Fire Official.
4. Buildings undergoing construction, alteration, or demolition operations, shall comply with NFPA 1, *Fire Code*, as amended, Sections 16.4 and 16.5 and NFPA 241, *Standard for Safeguarding Construction, Alteration, and Demolition Operations*, 2018 Edition.
5. A water supply for fire protection, either temporary or permanent, shall be made available, as soon as combustible material accumulates. There shall be no delay in the installation of fire protection equipment. (NFPA 1, *Fire Code*, 2018 Edition, Sections 16.4.3.1.1 and 16.4.3.1.2) [NFPA 241:8.7.2.1, 8.7.2.2].

6. Where underground water mains and hydrants are to be provided, they shall be installed, completed, and in service prior to commencing construction work on any structure. (NFPA 1, Fire Code, 2018 Edition, Section 16.4.3.1.3). [NFPA 241:8.7.2.3]
7. No vertical construction or storage of combustible material on-site shall be permitted, until fire hydrants are installed, inspected, flow tested and approved by the Fire Safety Division. Fire flows shall be conducted during peak demand hours, as determined by the Fire Department.
8. As part of the inspection and acceptance of project infrastructure, the Fire Safety Division shall determine if the accessibility for a fire apparatus is met, as per a Final Plat, and any corrective measures necessary shall be completed prior to the issuance of a Certificate of Occupancy.
9. The Deltona Water Department is to be notified to witness tapping of water lines for hydrants and the inspection of hydrant connections and piping. All hydrants and installations shall meet City specifications.
10. Requirements for Projects with NPDES Permits: It will be the responsibility of the contractor(s) to ensure that all required permits are obtained and are in hand at the job site prior to commencement of construction. The contractor shall abide by all conditions contained therein. Permits included (but not necessarily limited to) are:
 - FDEP and St. Johns River Water Management District permits
 - Local right-of-way use permits
 - NPDES General Stormwater Permit
 - USF&W and FWC environmental permits

Copies of the Notice of Intent (NOI) acknowledgement letter from FDEP with permit number and a copy of the Stormwater Pollution Prevention Plan (SWPPP) must be sent to the following address prior to commencing construction:

NPDES Inspector

201 Howland Blvd.

Deltona, Florida 32738

A copy of the NOI or letter from the FDEP confirming coverage under the State of Florida Construction Generic Permit shall be posted at the construction site in a prominent place for public viewing, in compliance with Part III (C)(2) of the State of Florida Construction Generic Permit.

11. Perimeter soil and erosion controls and controls for sensitive areas that conform to Best Management Practices (BMPs) must be installed prior to land clearing/disturbing activities. The contractor is to continually maintain, at his/her expense, any and all erosion prevention systems, material management, and waste management needed to insure that project construction will limit the exposure of these materials to stormwater and that construction will not cause any water quality degradation or violations to on-site or off-site properties, water bodies, ponds, lakes, or wetlands. No direct discharge of unfiltered water to downstream receiving waters will be allowed and discharge water shall be routed in such a manner as to adequately remove silt prior to runoff from site. The proposed BMP controls shall conform to federal, state, and local requirements or manual of practice, as applicable. The contractor shall implement additional controls as directed by permitting agency or owner. Wash-out areas shall be clearly delineated with silt fence, utilized, inspected daily, and maintained.
12. The contractor shall be responsible for performing weekly inspections of the SWPPP erosion controls and completing the Inspection Forms. Copies of these reports shall be maintained at the project site and made available to the City NPDES Inspector, upon request.
13. The limits of disturbance have been provided to the contractor on the construction plan. Unless otherwise directed by the owner or engineer, the contractor is expected to contain all construction activities within these limits. At no time shall the contractor disturb surrounding properties or travel on surrounding properties without written consent from the property owner. Any repair or reconstruction of damaged areas in surrounding properties shall be

repaired by the contractor on an immediate basis. All repairs shall be the responsibility of the contractor and no extra compensation shall be provided.

- A. All Florida Department of Environmental Protection application forms submitted to the City/Deltona Water must bear original signatures and seal of the engineer of record (EOR). Two (2) sets of signed and sealed construction plans are required for City records.
- B. Two (2) sets of as-built plans signed and sealed by the EOR, and a certification of construction letter from the EOR certifying that construction has been completed in substantial accordance with the approved plans and specifications must be submitted to the City/Deltona Water prior to final project inspections being performed of the completed project. Any deviations or modifications from the approved plans and specifications must be noted by the EOR in the certification letter and indicated on the as-built plans as applicable.
- C. The Site Engineering Permit/Inspection Placard shall be posted with the Building Permit and inspections performed by the applicable City Departments, as noted on the permit. It is the responsibility of the owner/developer and/or contractor to ensure that inspections are requested and performed as appropriate for the project.
- D. A copy of the St. Johns River Water Management District Environmental Review Permit (District), or letter from the District exempting site from permitting requirements, shall be provided to Public Works/Engineering prior to construction of any stormwater system improvements. Upon completion of construction, the EOR shall also submit a copy of the executed District certification of construction form.

Joseph Ruiz, Interim Director
Community Services

Date Approved

STATE OF FLORIDA
