Deland, FL 32720

RE: Enterprise/Osteen EAST PUD - City of Deltona
School Capacity Review #20-02-21-001b-A

Dear Mr. Watts:

The County Charter requires any Comprehensive Plan Amendment or Rezoning allowing increased residential density be effective only when adequate public schools can be timely planned and constructed to serve the projected increase in student population. The district uses this requirement as the guiding principle behind the school adequate capacity review.

The School District has reviewed the information for the proposed Enterprise/Osteen EAST PUD associated with 130+/- acres of property located southwest of the intersection of Enterprise Osteen Rd and SR415 within the City of Deltona. The proposed rezone will allow for a total of three hundred twenty-three (329) single family residential units.

The district uses a county wide Student Generation Rate (SGR) of (0.273) per single family and (0.127) per multi-family dwelling unit to calculate projected students.¹ By applying the SGR to the use types in Table 1, we find the project could generate eighty-nine (90) full time students.

Table 1

UNIT TYPE	SGR	UNIT COUNT	STUDENTS GENERATED
Single Family Dwelling Unit	.273	329	89.8
Multifamily Dwelling Unit	.127	0	0
Manufactured Home Dwelling Unit	.047	0	0
Total			90

¹ Most recent student generation rates are found in the School Impact Fee Update dated February 19, 2019. Study performed by Tindale Oliver.

Enterprise/Osteen EAST PUD - City of Deltona
May 6, 2020

When performing adequate capacity review district staff evaluates the effects of the proposed change compared to any remaining permanent capacity within the impacted schools, up to 100%, Table 2. The projected increase in student population may be over 100% if there are plans to serve increased student population in that planning area within the long-term planning horizon. A finding of adequate capacity may be issued in either case.

Table 2

Schools	2019-20 SY Enrollment	% of Permanent Capacity	Plans for capacity increase long-term	Traditional K-12 Students projected
Osteen Elementary	488	74%	no	40
Heritage Middle	1075	97%	no	21
Pine Ridge High	1745	100%	no	21
OTHER				8

The school board has begun design on Deltona middle with additional capacity, the school board has land banked for future schools in Deltona, and none of the impacted schools is projected to be above capacity in the next several years. Based upon these long-term plans for growth, the school district has no objections to the proposed PD.

All future development orders, such as site plans and subdivisions, are subject to school concurrency review. School concurrency will be evaluated at that time when the impact of development is specifically quantified and known. Only funded school improvements and then current capacity will be considered at that time.

No Student Reservations have been made at this time.

Please note that the School Board has the right to adjust the attendance boundaries to balance the student enrollment populations at these area schools. Consequently, students generated from this project may not attend the current assigned schools.

If you should have additional questions please contact me at (386) 947-8786, extension 50709.

Sincerely,

Gregory P. Akin
Chief Operating Officer

Finding of Adequate School Capacity **Volusia County School Board**

Project Information	
Project Name	Enterprise Osteen East PUD
VCSB Project #	#20-02-21-001b-A
Jurisdiction Project#	
Parcel ID Numbers:	9112-00-00-0230; 9113-00-00-0021
Project Location:	Southwest of Enterprise Osteen Road and SR 415 in Deltona, FL
Potential Residential Units:	329
Property Owner/Applicant:	William E Barfield PA TR, Osteen Land Trust Number 1 / Mark Watts, Cobb Cole Attorneys

Based upon the Findings of Fact, pursuant to School Board Policy 612 and Section 206 of the County Charter, the school district has determined at this time that school capacity is adequate to serve the proposed increase in residential density. This Finding shall constitute competent substantial evidence that adequate public-school capacity is likely to be available at the time it is required to serve the planned new development.

Capacity is not being reserved with this Finding unless otherwise noted on this document. This Finding of Adequate School Capacity allows this subject project to continue through the Comprehensive Plan Amendment and/or rezoning process; however, may be subject to additional school capacity review in the future.
