Re: Astute Children’s Academy

Dear Administrator:

Astute Children’s Academy is seeking a zoning approval to operate a child care facility.

The licensing specialist has reviewed the plans submitted by the applicant and determined the facility can meet the Department’s requirements for 152 children. The licensed capacity issued by this office is contingent upon the Health and Fire Department’s approval of the above noted child capacity and final measurements from the Department when construction is finished..

In order to meet requirements, if operating at capacity, this facility would require a minimum of 12 staff.

The Provider will need to submit a zoning approval to the Department of Children and Families to continue with the Licensing process.

Thank You,
