SCHEDULE OF BASE BID MANUFACTURERS/SUPPLIERS
(SECTION 00300A)

The Contract Documents are based upon the equipment or products available from the manufacturers/suppliers denoted as "A", "B", etc. However, the Bidder must indicate in his Bid which Base Bid manufacturer/supplier he intends to use for each item of equipment listed by circling one (1) of the listed manufacturers/suppliers. Should the Bidder fail to circle a named supplier, he hereby agrees to provide the item listed as "A". After receipt of bids, the Bidder may not substitute for any manufacturer or supplier circled. Listed manufacturers/suppliers identified as deductive alternates will be considered as a deductive alternate as presented in the Deductive Alternate Section of the Bid Form.

If the Bidder desires to propose one (1) or more substitution or "or equal" manufacturers/suppliers, he may write in the name of such substitution or "or equal" in the spaces provided on the pages following the lists, but he must, nevertheless, also circle one of the listed manufacturers/suppliers. All substitutions or "or equal" items must be identified at the time of Bid (see paragraph 6.7 of the General Conditions as amended by the Supplementary Conditions). Substitutions or "or equal" items will **not** be considered when determining the Apparent Lowest Bidder. Substitutions or "or equal" items will **not** be evaluated or considered until after the "Effective Date" of the Agreement. The Bidder shall base his Bid on providing one of the listed manufacturers/suppliers and shall assume for bidding purposes that all substitutions or "or equal" items will not be accepted.

If the proposed substitution or "or equal" manufacturer/supplier is determined "not equivalent" by the Engineer, the Bidder must use the circled manufacturer/supplier. If the Bidder fails to indicate which listed manufacturer/supplier he intends to use or if a substitution or an "or equal" is rejected, he must use the manufacturer/supplier listed as "A". Also, if the Bidder circles more than one listed manufacturer/supplier, he must use the first manufacturer/supplier circled (unless a substitution or "or equal" is approved).

Each proposed substitution or "or equal" will be evaluated in accordance with Paragraph 6.7 of the General Conditions as amended by the Supplementary Conditions following the Effective Date of the Agreement.

In addition to the reimbursement required under Paragraph 6.7 of the General Conditions, the Contractor shall also reimburse the Owner for any engineering costs directly attributable to the change in manufacturers/suppliers, caused by the acceptance of proposed substitution or "or equal" items, such as; additional field trips for the Engineer, additional redesign costs, and additional review costs, etc. Other costs directly attributable to the change in manufacturers/suppliers caused by the acceptance of proposed substitution or "or equal" items such as increased electrical requirements, larger building, modifications to structures, additional pumps, piping or tankage, etc., shall be borne by others and not by the Owner. Bidder further agrees that the use of substitute equipment offered will not affect the completion date.

The Owner may request, and the Bidder shall supply, complete information on proposed substitution or "or equal" items prior to the Notice of Award.

A.G. Pifer Construction Co. Inc. has never had a contract terminated for any reason

Mr. Anthony Gregg Pifer

President

A.G. Pifer Construction Co., Inc. was established as a Corporation in December of 1989, with a workforce consisting of one laborer and Anthony Gregg Pifer as President/Owner and has grown to a competitively sized construction company with sixteen employees and annual gross sales averaging \$7 to \$8 million dollars.

In May of 1988, Mr. Pifer started the company with a Superintendent's weekly paycheck of \$360.00 and a lot of prayer.

Mr. Pifer's construction career started in 1972, when a friend's father hired him to move drywall to the second floor of his office building in Pittsburgh, PA. He noticed the framing carpenters building walls and decided it would be a great thing to learn more about. He obtained guidance from one of the finest carpenters he had ever met, even to this day. During the last two years of high school, he entered a trade school called Parkway West Technical School, where he received his technical training regarding construction mechanics. While in technical college, he was put in charge of constructing a four-story classroom building to be used for future students in the facility. This building is still used on campus today.

In 1981, Equity Realty Inc. hired Mr. Pifer over the phone. Their primary business was condominium conversions. After two weeks of employment he was promoted to Head Carpenter, overseeing a 270-unit complex in Altamonte Springs. In the following five months, at the age of twenty-one, he was once again promoted; this time to Head Supervisor in charge of multiple million-dollar projects. At eleven months he was transferred to Daytona Beach to oversee a project, which the budget was about to be exhausted and completion was not in sight. Mr. Pifer successfully completed the project within the anticipated budget.

He then accepted a position with the local Carpenters Union and worked at Epcot Center for seven months. During these months, he excelled in his knowledge of custom construction methods and other trades related to construction. After a few years of constructing both high-rise and low-rise as well as numerous types of other buildings, Mr. Pifer accepted a position with Hall Construction.

Mr. Jim Hall sent Mr. Pifer to Construction Licensing courses to prepare him for the State Certified Contractors' Exam. In May of 1987, Mr. Pifer passed the Contractors' exam and notified Hall Construction Co. that he, with a two-year notice, would be leaving to venture out on his own.

Anthony Gregg Pifer started A.G. Pifer Construction Co., Inc. in Dec of 1989. In the years to come, the firm experienced well controlled growth. This growth included both small and large-scale projects, and no project was unmanaged by Mr. Pifer himself. The reputation of the company grew and to this day, its clients continue to call back for additional projects.

Mr. William DeMattia was hired by Mr. Pifer in October of 2005 at the young age of 21 years old. Eager to learn the construction field, Mr. DeMattia quickly found a place with the A.G. Pifer Construction crew and began developing his vast knowledge of construction.

Throughout his employment with A.G. Pifer Construction Co., Inc., Mr. DeMattia was given the opportunity to manage jobs and repeatedly proved to Mr. Pifer that he had what it took to become a successful Superintendent.

He effectively completed the job on time and without complications, proving to Mr. Pifer that he was a viable asset to the A.G. Pifer Construction family.

One year later, Mr. DeMattia was asked to join the Office Team of A.G. Pifer Construction Co., Inc. as Assistant Project Manager to Mr. Pifer. Mr. Zachary Pifer

Project Coordinator

Mr. Zachary Pifer was first employed by A.G. Pifer Construction Co. Inc. when he was just 18 years old. Growing up, his father, Mr. Anthony Pifer, President and CEO of A.G. Pifer Construction Co. Inc., would take him around to different jobsites and show him what he was building at the time and how everything came together to reveal a flawless structure at the very end. Little did he know, that these little job site visits after school had solidified an ongoing interest for his son. Mr. Pifer wanted to expand on his knowledge of construction and understand the inner working components of his father's profession and consider being a part of the family business when he got older.

When he first started at A.G. Pifer Construction Co. Inc., Mr. Pifer was in the field as a General Laborer and was engaged in all aspects of construction work. This allowed him to hone in on his skills. This was the opportunity that he was looking for to better himself and become more knowledgeable about the industry as a whole. Mr. Pifer wore multiple hats in the field and jumped in as a Foreman or a Supervisor when needed, depending on the nature of the project.

Mr. Pifer was on path to go to college. Mr. Pifer graduated from High Point University, located in High Point, NC with a Bachelors in Business Administration with a Minor in Sales. Mr. Pifer worked in several different roles that gave him valuable knowledge and experience in: Real Estate, Recruitment & Job Placement, Customer Service, and the Hospitality industry. Ultimately, Mr. Pifer made his way back to Daytona Beach, FL where he was asked to come work as a Project Coordinator for A.G. Pifer Construction Co. Inc.

As a Project Coordinator, Mr. Pifer is responsible for verifying sub-contractor compliance with codes, specifications, regulations, site materials, project blueprints, status reports, and safety guides. He is to assist and help alleviate any potential issues that may arise during any given project. Mr. Pifer contributes much of his time to help assist the Project Management side with active projects as well as schedule and prepare for upcoming projects.
